

is all that I have, Mr. President.

SPEAKER NICHOL: Thank you. We'll move on to motions. Is Senator Schmit here? If not, we'll move on to the second motion of Senator Beutler. I understand Senator Morehead is going to handle that. Mr. Clerk.

CLERK: Mr. President, Senator Beutler has moved to withdraw LB 990. That motion is found on page 902 of the Journal.

SPEAKER NICHOL: Senator Morehead, please.

SENATOR MOREHEAD: Mr. President and members of the body, the motion before you is to withdraw 990. We had a rules discussion for several days earlier in the session. During that discussion we decided, as a legislative body, to incorporate into our rules the printed qualifications as they are in statute for the language on appropriations bills. Senator Beutler had originally intended to withdraw from...or make an attempt to take out of the statutes, as embodied in 990, the language entirely. There was communication between Senator Beutler and Senator Warner and myself. I had told Senator Warner that if this was put in our rules that Senator Beutler did not intend to take it or remove it from the statute, and in agreement with that communication, on the part of all three of us, I would like to ask your support of this withdrawal.

SPEAKER NICHOL: Any further discussion? All those in favor vote aye, opposed nay. Record, Mr. Clerk, please.

CLERK: 32 ayes, 0 nays, Mr. President, on the motion to withdraw the bill.

SPEAKER NICHOL: The bill is withdrawn. Before we move on to Senator Schmit's motion, may I please introduce some guests. Senator Jerry Miller has guests, Chuck and Nancy Tomsen of Minden. Where are you, Tomsens? Under the south balcony. Would you folks please stand. Thank you for visiting us this morning. We also have guests in the south balcony this morning, 15 members of the Nebraska Federation of Democratic Women from the 2nd Congressional District, accompanied by the President of the District. Would you please welcome these guests to the Legislature. I understand we also have many guests who are interested in the magic number today, and that magic number is 300. So
